WELCOME TO THE  
**FUTURE OF FANS**

# SIX DECADES OF TRUST, INNOVATION & EXCELLENCE

We started our journey more than 60 years ago, manufacturing and distributing highly efficient, premium-quality fans. Since then, we have grown, embracing new frontiers in technology and innovation, to become one of the leading consumer electrical brands in India. Today, we are the largest manufacturer and exporter of fans from India with a dominating global presence in over 35 international markets. In the domestic market, we enjoy a robust pan-India reach with over 1 lakh retail outlets and a service network covering 450 cities, aided with a 24x7 call center.

Not only this, we have also paved the way for pioneering developments in home appliances, lighting and switchgear.

We take pride in our R&D capabilities, spirit of continuous innovation and commitment to manufacturing cutting-edge lifestyle electrical products that meet the needs and expectations of modern consumers.

We've always strived to achieve and exceed industry benchmarks in quality and processes through a constant evolution and rejuvenation process.

As always, we'll continue to partner with our customers at every stage of their lives by offering superior lifestyle solutions with technology that makes their world safer, easier and creatively inspiring.

# STATE-OF-THE-ART FAN-MANUFACTURING FACILITIES

Many of the innovations in the fan industry that are now taken for granted came from the research of Orient Electric's R&D centres and from the urge to bring top-quality products to Indian consumers.

Our state-of-the-art ISO-certified manufacturing facilities at Faridabad, Kolkata and Guwahati employ some of the most modern technologies, such as automatic stator winding plants and automatic liquid paint shops, in order to improve productivity and to meet the increasing consumer demand.

Quality being the key driving force behind everything we do at Orient Electric, we conscientiously follow the Six Sigma processes to manufacture zero-defect products.

In India we are the pioneers of die-casting the rotor and fan body cover in ceiling fans and the semi-automatic coil-winding process.

# ORIENT ELECTRIC FANS' MILESTONES

1939 The journey begins.  
Factory established in Kolkata.

1954 Inducted into the CK Birla Group.  
Renamed as Orient Fans.

1965 Became the first Indian company to  
introduce die-casting of the rotor and  
fan body cover in ceiling fans.

1969 Factory established in Faridabad.

1990 Developed & patented the revolutionary  
PSPO technology for fans.

2014 New brand identity unveiled.  
Rebranded as Orient Electric with the  
positioning statement of 'Switch to Smart'

2014 Launched energy-efficient BLDC fans.

2016 Launched its own E-commerce portal.

2016 Unveils the 'Very Silent Very Powerful'  
Aeroquiet premium ceiling fan.

2017 Opened a manufacturing facility  
in Guwahati, Assam.

2017 Orient Electric demerges & got listed  
as a separate entity.

2018 Orient Electric Limited gets listed  
on the stock exchanges.

2019 Launches India's first smart ceiling fan

## Accolades as glorious as our range

Our unwavering commitment to quality, innovation and excellent customer service has been recognised both nationally and internationally. We have been conferred with the illustrious 'Make in India Award for Excellence' in 2015, the prestigious 'Asia's Greatest Brand award in 2016 and the globally acclaimed 'Superbrand' status in 2019.

We have been listed as one of the top 15 most trusted Indian brands in the consumer durables category, consecutively in 2014 and 2015. We have also been recognised by the Limca Book of Records for producing the maximum number of ceiling fans from a single manufacturing unit in 2014-15. We have been consistently awarded the 'Star Performer' for many years by the Engineering Export Promotion Council (EEPC). Last but not the least, we're rated as the 'Star Export House' by the Ministry of Commerce and Industry, government of India.

# INTRODUCING

## ◦◦◦ i - SERIES ◦◦◦

At Orient, we constantly strive towards greater efficiency and with that vision, we have designed the innovative i-Series fans. The state-of-the-art BEE 5-star rated i-Series fans powered by ECM technology save up to 50% energy and also comes with IOT and voice controlled. They offer superior and silent performance even at low voltage. Now that's called smart, isn't it?

## ◦◦◦ AERO SERIES ◦◦◦

The new age of fans is here, and it won't be an overstatement to call the Orient Aero Series as the flag-bearer of this change. The Aero Series fans have many sides to them. They are bold, dynamic and premium. They also are technologically unmatched, governed by the core principle of aerodynamics, applied in aircrafts and Formula One cars.

This design and the use of new-age material reduce friction and air turbulence like never before. The result? Drastically reduced fan noise and an unmatched air thrust.

So, wait no further. The coolness, the silence, the future await you.

## Presenting Orient Aeroslim:- India's first inverter fan.

Set to redefine ceiling fans with its one-of-a-kind cylindrical design, the Orient Aeroslim will be the centre of attraction in every room. Its telescopic adjustable mounting compliments both traditional and modern ceilings. The seamless design and the premium hydrographic finish paired with the PU paint make this fan an objet d'art.

The Aeroslim takes the technological genius of the 'very silent, very powerful' Aeroseries fans to a whole new level. Its advanced aerodynamic blades give an impressive air delivery of 240CMM, and its super-efficient inverter motor works on just 45W of power while ensuring silent operation at voltages as low as 140V. The Aeroslim has a sweep of 1200 mm, with blades made of high-grade glass-filled compounded ABS, making them bend-proof, rust-proof and of course, easy to clean.

Wait, there's more to the Aeroslim. This smart fan is IoT-enabled, & voice putting comfort and control at your fingertips. The IoT control gives users the freedom to manage fan speed and modes, reverse rotation and lighting. With mesmerizing looks, aerodynamic design, remote-controlled operation and IoT technology, the Orient Aeroslim has everything you could ask for in a fan.

## Art meets technology

Inspired by the ground-breaking winglet technology in modern aircrafts, Orient's new-age Aerostorm fan is revolutionary in its own right. The unique winglet design of the blades minimizes the vortex, delivering higher air thrust and minimal noise.

## How does it work?

The pressure at the wings creates a vortex and drag. The winglets help reduce this vortex at the wings, resulting in a smoother functioning and lesser noise.

- Aerodynamic blade design for higher thrust and air delivery
- Winglet in blades minimizes the air vortex and noise
- Eye-catching spiral curves in canopy, curves in blades and bottom cover plate
- High-gloss PU finish
- 100% rust-free blades made of high-grade compounded ABS for durability
- Sturdiest and heaviest motor design for longer life

## The perfect blend of design and functionality

Orient Aerocool takes the technological genius of Aerostorm a step further. Apart from having the winglet, the blades are shaped after the aerofoil design of modern aircraft wings. This results in higher lift, better thrust and lower noise.

## How does it work?

The air delivery of a fan depends on the air velocity and the area covered by it. If the air thrust increases, so does the air delivery. The aerofoil design helps in increasing the air thrust, and therefore the air delivery.

- Aerofoil blade design for higher thrust and air delivery
- Winglet in blades minimizes the air vortex and noise
- High-gloss PU finish
- Awe-inspiring seamless design
- 100% rust-free blades made of high-grade compounded ABS for durability
- Sturdiest and heaviest motor design for longer life

Aerolite is similar to Orient Aeroquiet, only better. It comes with an additional benefit of having an LED light panel underneath. Now enjoy a heavenly silence under the bright light of LED.

### How does it work?

The air delivery of a fan depends on the air velocity and the area covered by it. If the air thrust increases, so does the air delivery. The aerodynamic design helps in increasing the air thrust, and therefore the air delivery.

- Warm white LED light
- Aerodynamic profile blades for high air delivery
- 100% rust-free blades made of high-grade glass-filled ABS for strength & longer life
- High-gloss premium finish with PU paint
- Smooth airflow for silent operation
- Sturdiest & heaviest motor design for longer life
- Double ball bearing for smooth & noise-free operation

A man with dark hair and a beard, wearing a white t-shirt, is lying on his back on a bed with white linens. He is holding a young girl with long brown hair, wearing a white top and blue shorts, up in the air with both hands. The girl is smiling and has her arms outstretched. The background shows a bright window with white frames and a white door with shutters. The overall scene is bright and cheerful.

## HOW TO SELECT THE CORRECT ORIENT ELECTRIC CEILING FAN

ROOM SIZE	FAN SIZE			PSPO Value 3 Blades	PSPO Value 4 Blades
	mm	feet	inch		
4x4.95m To 4.55x4.55m	1400	4.5	56	480	
4x4.95m To 4.55x4.55m	1300	4.2	52		5 Blade Fans
3x4.00m To 3.65x3.65m	1200	3.9	48	420/440/460/475/480/580	470/480
2.5x3.3m To 3x3m	1050	3.4	42	410/425	
2.5x2.4m To 2x3m	900	2.9	36	400/410	
<b>Important:</b> To maximize air delivery over the required area, your Orient Electric ceiling fan should be 2.1 meter or more from the ground and 30cm or more below the ceiling. For large rooms with more than one fan, the center distance between each will depend on sweeps.					

Sweep	1400mm	1200mm	1050mm	900mm
Center Distance	3m	2.5m	2m	1.8m

- Visuals shown in the brochure, may vary slightly from actual product
- All ceiling fans are with double ball bearing
- Air delivery may vary  $\pm 5\%$
- All specifications are subject to change without any prior notice
- Models may change during the year
