

BRISK DOWNLIGHT

Curve Series

The *Curve Series* is the flagship model in the ALTUM lineup, featuring a distinctive curved front ring that creates a unique play of light. The curvature of the ring produces a beautiful contour of illumination, with the brightest reflection concentrated near the light-emitting surface (LES) and gradually softening as it curves away. This sophisticated design not only adds aesthetic appeal but also offers a “moon crater” effect when professionally installed, transforming your ceiling into a visual masterpiece.

The model incorporates our signature heatsink pattern and proudly displays the registered E logo, symbolizing authenticity and superior craftsmanship. Equipped with a powerful LED, a highly efficient PMMA diffuser, and a reliable BIS-certified power supply, the *Curve Series* delivers the performance, reliability, and elegance you expect from Enlighten Pro.

BRISK DOWNLIGHT

Curve Series

MODEL	SHAPE	POWER	OUTER SIZE	CUTOUT
Brisk	Round	12W	∅136×H48	∅126
Brisk	Round	18W	∅164×H50	∅154
Brisk	Round	24W	∅198×H53	∅191
